Universität Bremen

JACOBS UNIVERSITY

7ᵗʰ Bremen Summer School and Symposium
Dynamical systems – pure and applied
August 5–9, 2019

Lecture courses:

Ergodic Theorems
Tanja Eisner (University of Leipzig, Germany)

Dynamical cross-diffusion systems: modeling, analysis, numerics
Ansgar Jüngel (TU Vienna, Austria)

Topics in Thin Groups
Alex Kontorovich (Rutgers University, USA)

Symposium Speakers include:

Bente Bakker (University of Leiden, The Netherlands)

Oscar Bandtlow (Queen Mary University of London, UK)

Martina Chirilus-Bruckner (University of Leiden, The Netherlands)

Charlene Kalle (University of Leiden, The Netherlands)

Sabrina Kombrink (Universität Göttingen/Universität zu Lübeck, Germany)

Keivan Mallahi-Karai (Jacobs University Bremen, Germany)

Olga Pochinka (HSE Nizhny Novgorod, Russia)

Julie Rowlett (Chalmers University of Technology, Sweden)

Tanja Schindler (Australian National University, Australia)

Richard Sharp (University of Warwick, UK)

Dalia Terhesiu (University of Exeter, UK)

Sergey Zelik (University of Surrey, UK)

Organising Committee: M. Keßeböhmer, M. Oliver, S. Petrat, A. Pohl,
J. Rademacher and D. Schleicher
